Dear Mr. Reed:

I would like to acknowledge receipt of your letter of December 22, 1977, requesting a modification of the minimum flow required by Article No. 28 of the license for Project No. 2230.

Your request has been forwarded to our Washington office for consideration by the Commission in accordance with License Article No. 28. A reply will come to you directly from the Secretary's Office, Federal Energy Regulatory Commission (formerly the Federal Power Commission).

Very truly yours,

Eugene Neblett
Acting Regional Engineer
